

The Northern Shetland Enthusiasts Group have managed to secure an exclusive visit to the internationally renowned Beamish Open Air Museum.

The trip will include special viewings of the Heavy Horses in full ploughing harness, Shetland Pit ponies, Gelderlanders and the Vaux carriage horses.

Beamish is also home to Cleveland Bays.

The group will have a tour of the site by tram and exclusive use of the tea room as well as access to new visitor attractions across the 300 acre site.

A concessionary price has meant that people will experience a world class attraction with plenty of focus on working horses for the princely sum of £5.
